Springer Nature is committed to opening up paths to discovery for today's researchers in order to accelerate their ability to solve societies' grand challenges. The illustrations we use on our covers celebrate some of the great minds who have shaped our knowledge through history.

John Dewey (1859–1952)

John Dewey radically transformed fundamental approaches to teaching and learning. He believed that the purpose of education was the realisation of one's potential and the ability to use those skills for the greater good within society. Dewey's emphasis on progressive education has had an enduring influence on pedagogy, psychology and philosophy, revolutionising how we teach and learn.

This illustration was created by one of the talented team of designers at Springer Nature.

Credit cards preferred (AMEX, MasterCard, VISA).

Springer Nature ships internationally.
